

AQUAEL

UltraScape Set
Feel the freedom of creation

Enjoy freedom of creation with **ideal measures and harmonious proportions** of UltraScape aquariums. **Opti type glass**, open tank made of **thick glass**, **adjustable rack with Leddy Tube lighting** and **unique design** are just some of the advantages of the set. UltraScape Set is available in two sizes and two colour options.

Invite nature into your home and enjoy it without any limits.

UltraScape Set

The **UltraScape Set** is a product dedicated to real **enthusiasts**. The set has been created in cooperation with Michał Adamek, the champion of Europe in aquascaping. It is the official tank of the **European Aquascaping Championship** and was presented to a wider audience at national and international trade fairs, where it was met with great interest and the appreciation of the visitors.

It is an unrivalled and **unique set** on the market. It travels round the world inspiring both amateurs and demanding underwater professionals and lets them enjoy fish keeping.

The **minimalistic** packaging design draws from the world of aquascaping and fine arts. The raw cardboard packaging is decorated with an illustration of *Aponogeton Madagascariensis* and the **golden spiral and golden division** symbols. It is the golden rule that aquascapers follow when designing underwater arrangements. While opening the packaging, you will also find a word of welcome, printed on certified paper from sustainable sources.

Join the aquascaping community with the **UltraScape Set** and **feel the freedom of creation!**

The ideal tank proportions – the depth of the **UltraScape 90 Set** and the optimum height of the **UltraScape 60 Set**, recognised by aquascapers – allow for the creation of unlimited arrangements, following both the experimental and classic trends. **Transparent silicone, polished, sanded edges and precise, butt-bonded glass** are important finishing features in the premium range of tanks.

UltraScape Set

energy-efficient Leddy Tube lighting included

cable wrap

tank mat

height-adjustable rack

opti type glass

butt-bonded glass

sanded edges

transparent silicone

thick glass requiring no additional reinforcement

dimensions of individual tanks:
60 Set: 23.6×11.8×14 inches
90 Set: 35.4×23.6×31.5 inches

UltraScape Cabinet

The UltraScape Set also comes with **dedicated cabinets** available in two design versions: **forest and snow**. The black satin and textured finish of the forest set and the satin finish of the snow set are designed **in line with the current interior design trends**.

roomy interior for Ultra and Ultramax filters – this also applies to UltraScape 60 Cabinet

satin finish

2 colour schemes

height-adjustable feet

magnetic catches

The cabinet is additionally equipped with the special **vertical hose grommets on the sides** as well as **height-adjustable feet** provided in a number sufficient to ensure stability and even weight distribution under even the heaviest arrangements.

vertical hose and cable grommets
